## FIRST DEFEAT

The philosophers agree that defeat and failure contribute to success. Our "little home town team" met defeat Friday last, and expect to win next Friday.

130 persons saw the battle-royal that was previously promised. Blytheville H. S. team, the strongest high school team within 100 miles, defeated ours—but had to earn it. Bringing 30 players, and using 20 of them, they piled up a score of 19 to our 7. Jackson, on the same day, defeated Perryville 49 to 0. Farnfelt defaulted to Caruthersville.

Outweighed, and pitted against a generous supply of reserves, our team was game till the finish. Some of the Caruthersville players saw the game, and straightway wondered at the lightning-like tactics of the Blytheville aggregation.

Earlier estimates still hold; that H. H. S. will not lose another game this season. Our team is out to take the schedule clean from this date on. Give the boys your encouragement; they are on the field and in the game till the league prize is put up for you to look at.

Kennett Democrat: Chas. Morgan was over from Hayti last Friday, transacting business. He informs us that he has recently opened a grocery and meat store in the old stand which was formerly occupied by the Fred Morgan saloon.

## A REAL FARMER ON A REAL FARM

It is with special notice that we from time to time call the attention of the readers of the Herald to the stride our county is taking in the agricultural lines—more and better farmers—more and better farm machinery.

Quite often we are called to notice different views of the farmers of this county, and each time it only shows that the county before many years will have passed from its stage of infancy into a developed state of being the foremost agricultural county in the United States.

Another instance this week of our development is on the DeLisle farm only a few miles southwest of this city. W. J. Moore is in full control of the making of the different crops on this farm of some 438 acres of as fine land as the rain from the Heavens ever fell upon, and that he is as good and progressive a farmer as the land is in quality, is evidenced by the fact that he this week purchased a John Deere 12-20 Tractor and full equipment of a plow carrying three 24-inch discs, disc harrow, colter, leveler, etc. This is real farming, and the fact that Mr. Moore is progressive in farming will bring strong backing from the DeLisle brothers, his landlords, and backing by men of their capital and calibre is worth something.

Would we had a lot more of such farmers and landlords in this county.

## MAKES TRIP THRU FROM HAYTI IN AUTOMOBILE

Drew Vardell of this city and W. E. Burlison and John Smith of Hayti, believe that they are the first to make a through trip from Hayti to Kennett over dirt road in an automobile, which feat they accomplished Thursday of last week. Parties have made the trip from here over to Bragg City and from Hayti to the same place, but up to that time no one had reported a continuous trip in an auto across the swamp. They made the trip in three hours, making short stops at Bragg City, Pascola and other points along the way, and report the going pretty good most of the way. Mr. Vardell says that anybody can make the trip in a Ford car, but does not advise trying it at present in the heavier cars.—Kennett News.

## FIGHTING AMERICANS QUARTET

Few people realize the part that music has had in the winning of the war. That never-give-in spirit called morale is largely a product of the cheerfulness due to the songs of the men on the march and in camp. And we have all heard these songs sung—most of us only at second-hand.

The Fighting Americans, composed of four young men from the A. E. F., will render a program on the local Lyceum course that will completely satisfy the longing of the home-folk to hear at first hand the songs of the boys in khaki.

These soldier boys bring us the great World War in music. And the songs they will sing will show us that not all of the war was tragedy. Much of it was fun and good fellowship and so in their program these soldier lads will show us the combination of fun, thrills and tragedy which is modern war. They will portray in song and pantomime the many sides of the life that has made men out of weaklings and heroes out of cowards.

Besides the quartet numbers there are excellent solos and duets. Each member of the company is capable of

## SERVICE MEN IN MUSICAL TREAT

With vim, vigor, ginger, and youth, these soldier boys will give a program that is seldom surpassed in merit by any male quartet. They are real soldiers who put over a program with the same pep used in going "over the top." Songs of the trench and camp; solos, duets, quartets, readings and character sketches, are featured. All of the members were professional entertainers before going to war.

Hear them on the local Lyceum Course soon.

sustaining his own part in solo work most creditably and these numbers will be one of the very enjoyable features of the program.

The boys will render the first half hour of their program in their service uniforms—snappy jazzy songs of the camp and the march, like "I Hate to Get Up in the Morning"; the rally songs and love ballads of the doughboys—al with the typical doughboy spirit.

For the main part of their program they appear in evening dress as a straight male quartet giving such an entertainment as only male voices of perfect blend and harmony can give. Passing from gems of classical and operatic music they render in their inimitable manner the latest popular airs. Then for variety comes comic readings, monologues and specialties by various members of the company.

The Lyceum management presents this company with great confidence because each of the members of the company has had extensive experience in platform work before entering the service and there would be no doubt of the success of the attraction as an ordinary civilian quartet. With their unique experience as a background and the timely songs of trench and camp as an interesting part of their program, this quartet is bound to be one of the features of the Lyceum Course this season.

## A METHOD FOR STORING CABBAGE

Fresh cabbage from the home garden may be had easily until late winter. Only solid heads of the late varieties should be stored. A simple method of storage is to pull the heads with the roots attached and bury upside down in a shallow trench.

The loose outer leaves should be wrapped closely about each head. About three tiers are placed in the trench, with the second and third tiers alternating between the roots of the first. The pile is then covered with earth and straw.

Chas. Provo and wife were in Caruthersville Tuesday shopping.

## JOHN P. STREIFF AGAIN IN HOSPITAL

Sergeant John P. Streiff, who it will be remembered received severe wounds while with the American forces in France last year, is again taking treatment. He is now in the Marine Hospital in St. Louis, and it is believed he is to lose one of his eyes as a result of a gas attack while in battle against the Huns.

His friends in this county only hope that he will not have this misfortune, and that he will have a rapid recovery.

Since returning from France he succeeded in obtaining employment as a salesman for The Buhler Mill & Elevator Company, of Buhler, Kans. and at the time of being ordered in the hospital was supplying the trade in St. Louis territory.

A letter below, from the head office of the milling company will only show that he is making good. It is as follows:

Buhler, Kans.  
Sept. 26th, 1919.

Mr. John P. Streiff,  
St. Louis, Mo.

Dear Mr. Streiff:

Mr. Reid has turned in quite a nice business that you have procured while you have been in our employ. We want to say that we are very much gratified of the results that you have shown. You have done better than we could have hoped for at the start. We feel that you are helping to thoroughly entrench our flour with the St. Louis trade, and want you to know that we appreciate faithful and persistent efforts of all those connected with our organization.

Mr. Reid tells us that you are now going to the Hospital to receive some treatments, from the results of your encounter with the Hun. We sincerely hope that it is nothing of a serious nature, and that you will come out of the Hospital better, than you are going in.

This is an opportune time to let up on the selling campaign somewhat, owing to the very serious car situation. When you get back on the job again, we hope an improvement may be discernable, and that we may be able to make the shipments to satisfy the trade.

Sincerely wishing you well, and the best of luck, we are,

Your very truly,

## ANOTHER ROAD MEETING

A meeting of delegates from various parts of the county was held here about ten days ago for the purpose of going over the road situation with a view of mapping out the routes for roads which should be improved under the provisions of a county-wide bond issue which has been discussed very seriously of late, but the meeting was never able to agree upon the proposed routing and adjourned.

Another meeting was held Wednesday of this week for the same purpose, but we are informed that it likewise proved futile so far as any definite agreement is concerned. Certain sections of the proposed north and south highway are still in dispute in the south part of the county and until an understanding is reached it is not likely that any definite steps will be taken.

Whenever this agreement can be made, however, we understand that petitions for the bond issue will be presented the County Court and a asked in the sum of \$750,000. S. P. Reynolds, of this city, will be in the preparation of the petitions, which will be given wide circulation in the county.—Caruthersville Democrat.

Caruthersville Argus: It is said the proposed contest of the recent courthouse election is now under way and the contestants are copying off the names on the poll books of precincts No. 1 and No. 2 in Little Prairie township. It appears that heaviest artillery of the attack will be directed upon these two precincts.

Yes, Bro. Blanton, and there are more of the like mind. It becomes necessary at times for people to take the law into their own hands and enforce it. It could be done here in good effect.
